DESCRIPTION

34.5 acres of zoned land comprising of 29.6 acres which has been zoned for the construction of 400 houses and 4.9 acres for commercial development. 188 houses are likely to be developed in the first phase with a single access road coming in from the Saline Road located to the west of the site. The houses planned for the site include some low cost housing to encourage first time buyers and young families.

The likelihood is that the development land will be sold off in lots and single house plots. The owners are looking into installing access roads and services and selling off individual house plots. There is a farmhouse and equestrian steading towards the east side of the site which is unlikely to be sold off in the short term. Offers for the whole site, including the farmhouse and steading however will be considered.
