Situation

Sunnyside is situated just under a mile north of Oakley and just over a mile south of the small village of Saline which dates as far back as the 13th century. Saline caters for various local amenities such as the general store, Post Office, Church, active community centre and a golf course with a lively bar.

For education there is a primary school in Saline and in Oakley and four high schools in nearby Dunfermline. Dunfermline has an attractive high street, The Carnegie Hall, Alhambra Theatre and the lovely Pittencrieff Park. There are excellent shopping and sporting facilities at Dunfermline. Dollar also offers a range of services, including the renowned private school, Dollar Academy, (with a bus running from Saline).

The surrounding countryside is very attractive and offers a wide range of recreational opportunities. There is a network of farm roads to the west of Sunnyside to Bicramside, Standalane and Cattle Moss Farms.

The Forestry Commission has recently purchased large areas of land in close proximity to the plot and has planted native woodland which has created an excellent place for walking, hacking and cycling.

Rights of way extend westward out about 7 miles to thousands of acres of land at Devilla Forest as well as the Dunfermline-Kincardine-Dollar disused railway line, now a cycle path. Saline Hill, Craighuscar Hill and The Glen are in close proximity to Sunnyside and the nearby Ochil and Cleish Hills are popular with walkers and mountain bikers.

Saline Golf Club offers very reasonable membership prices for all ages. In the surrounding Fife area there is a huge number of different courses. Other sporting opportunities are possible nearby, including fishing which is available on nearby lochs and reservoirs including the well-known nature reserve Loch Leven. The Loch Leven heritage trail is a fantastic cycling and walking trail accessible by anyone as well as catering to wheelchair needs.

The private tarred access road is on the left of the ruin

SERVICES

MAINS WATER & PRIVATE DRAINAGE

It is anticipated that the drainage will be to a septic tank and soakaway. The house was previously on a shared private water supply which extends along the south of the private access road. The private water main is believed to be about 550 metres long from the house plot to the roadend. A water meter would need to be installed by the purchaser.

MAINS ELECTRICITY

It is up to the purchasers to satisfy themselves as to the cost and provision of mains electricity but there is a transformer at Bicramside farm steading which is about 500m to the west of the plot. Further information can be received from: Scottish Power, Cathcart House, Spean Street, Glasgow, G44 4BE, 01415 682000. The sellers have instructed McGregor McMahon to apply for a new electric supply.

MAINS GAS

There is a wayleave for a large gas main over lands to the east of the plot but it will not be able to be connected into. It is up to the purchasers to satisfy themselves as to the cost and provision of mains gas but it's unlikely that there is a viable supply. Further information can be received from Scottish Gas, PO Box 23114, Edinburgh, EH5 1YR.

PLANNING DEPARTMENT/ PLANNING CONSENT

Enterprise, Planning and Protective Services, Kingdom House, Kingdom Avenue, Glenrothes, KY7 5LY, 08451 551122. Detailed Planning Consent was given 02/10/08 Planning Ref 08/02319/WFULL. Material conditions are as follows: The roof shall be clad in second hand clay pantiles. The current owners believe that they started the development and this triggered the implementation of the planning consent but McCrae & McCrae Ltd have requested clarification from Fife Council that this is the case to check that a new planning application does not require to be applied for. McCrae & McCrae Ltd believe that the ruins still comply with the Council's "Planning in The Countryside Policy" as the ruins are reasonably complete to "wallhead height".

THE 7 ACRE FIELD, COMPARABLE LOCAL SALES AND ASKING PRICE

The seven acres of land which are for sale with the house plot lie to the south and west of it. They are grade 3 (1) arable lands but only a 0.75 acres to the west of the house are fenced at present. The bulk of the land for sale lies to the south or west of the fenced lands. The south west and south east boundary is marked with posts. This south edge section of the land will have to be fenced off by the new owners (possibly with the neighbours paying 50%). Maintenance of the new fence will thereafter be maintained 50/50 with the neighbours.

McCrae & McCrae Ltd local sales show that often 2 acres of bare land sold next to a house or house plot can sell for £20,000/ac = £40,000 + 5ac @ £10,000/ac = £50,000 Total = £90,000). Total estimated land value (The present owner paid £200,000 for the plot + 7.25ac but realises he may not secure quite this total now). (This is reflected in the offers over £175,000 asking price). The property was drilled by Land-Drill Geotechnics, Philipstown, Linlithgow at a cost of £2000 and the land was seen to be stable.

THE ACCESS

The tarred private access road is shared with Bicramside, Standalane and Cattle Moss Farms. Future maintenance will be on a user basis. It is proposed that the purchasers install an access road in to the east of the house and one in to the west of the house to serve the field.
